Tips for your Portrait Sessions

~Child Portraits~

If we are only photographing your child or children, PLEASE only bring one parent to your session, if possible, and avoid bringing relatives. More than one adult slows things down and it's a distraction to the child or children. Consider bringing toys or items that your child enjoys/finds comfort in, but avoid iPads, tablets, and phones.

~Girls/Ladies~

Always wear makeup (NO Glitter) for your session. Limit skirts as they limit posing options. If you want to look slimmer, choose darker tones and longer sleeves. Sleeveless shirts attend to distract from your face.

~Family Portraits~

You do not want to be matchy-matchy, but colors should balance each other. Warm tones are best. Stay away from stripes and wild prints.

~Babies~

Limit your baby to 2 changes. Avoid clothing too BIG. It's best to start with your favorite outfit because you never know how long a little one will last.

~Eye Glasses~

Please take lenses out if possible, unless they are non-glare. There will be additional cost to remove glare.

~Late to your session~

It will be up to the photographer, how much to charge when arriving late for your scheduled session.
